PANJAB UNIVERSITY, CHANDIGARH

PULEET-2018

I.   **Question No. 12**

II.   Objections: Objection in PULEET Q12. The Correct answer is (C) 37.5%

III.   **Remarks: Objection is valid and <u>key Changed to Option "C"</u>**

I.   **Question No. 23**

II.   Objection/s: the answer key marks option D (25%) as correct. However, after careful calculations it is found that the option C (75%) is correct.

III.   **Remarks: Objection is not valid /Key is correct.**

I.   **Question No. 38**

II.   Objections: objection against question 38 in Johnson mod 12 counter the number of flip-flops are 4 because when we have count up 11-by 2n formula n=4 12 states are valid rest are not thats why ans is 4 flip flop.

III.   **Remarks: Objection is not valid /Key is correct**

I.   **Question No. 61**

II.   Objections: Correct answer is option A

III.   **Remarks: Objection is not valid /Key is correct.**
